WORK EXPERIENCE

PricewaterhouseCoopers, L.L.P.

Risk Assurance Intern

McLean, VA

June 2014 – August 2014

- Updated and maintained Continuous Monitoring and Testing (CMT) Build Dashboard to ensure accuracy and relevancy of all records as well as ensure dynamic functionality with any additions or deletions
- Wrote and delivered a speech detailing the use of personal branding in accordance with social media at The ARC
- Developed formulas and functions to deliver a concise summary of control testing statuses
- Created an Excel Workbook mapping Leidos' existing controls to corresponding SSAE16 controls
- Edited World Bank RFP and work program to reflect updated FY15 policies
- Created dashboards in Tableau to enable at-a-glance reporting on the status of the CMT project

Pfizer, Inc.

Medical Business Technology Intern

New York, NY

April 2013 – August 2013

- Archived the Fellowship Database to be transferred from Pfizer Medical Information site to Pfizer.com
- Designed layouts and created wireframes for product-centered, search results, and standard response web pages
- Consulted with vendors to determine the most accurate, cost-effective, and timely manner for transcribing meetings
- Created and configured electronic forms for medical inquiries to support the Globalization initiative
- Built and managed a web site for the Pfizer Medical Information Technical team
- Combined all SAP financial reports as a precursor to obtaining real-time financial reports for all companies
- Created a Pfizer-based schema and consulted with vendors to create templates and convert historical Scientific Response Documents to XML in order to better manipulate web pages for mobile viewing
- Created and configured electronic forms to facilitate reprint requests in compliance with the Sunshine Act
